# WINTER 2026: WORKSHOP HIGHLIGHTS

## THURSDAY

**Make Your Own Ring with Julia Sullivan** One Day, January 15, 2026, 9:00 AM - 12:00 PM **\$155**

Ring carving 101! Julia will walk you through the basics of carving a wax ring to be cast in sterling silver. She will provide jewelers' wax, tools, and templates, and will walk you through the carving process. You will learn to file, shape, smooth, and finish your wax model. After class, she will have your wax ring cast in sterling silver, polished, and available for pick up in about three weeks.

**Discover Metal Clay with Julia Sullivan** One Day, January 22, 2026, 9:00 AM - 12:00 PM **\$155**

Discover metal clay, and create one-of-a-kind, solid sterling silver pendant set with cubic zirconia gemstones. In this three-hour class you'll learn to shape the clay, include stones, and finish your piece, which will be fired after class and returned in one week. Class includes sterling silver metal clay, small findings, a few cubic zirconia stones and firings.

**Weave Your Own Shoelaces with Suzi Ballenger** One Day, February 12, 2026, 9:00 AM - 12:00 PM **\$75**

In this fun, hands-on 3-hour class, you'll learn to weave on a portable Inkle Loom and finish your own narrow shoelaces or eyeglass lanyards before lunch. Playful, irresistible, and totally doable — this is a must-try workshop! No experience needed, and all materials are included. The looms will be set up and ready for you - just bring your curiosity and get ready to weave some fun!

## FRIDAY

**Natural Dye Day with Suzi Ballenger** <sup>Off-Site</sup> One Day, February 20, 2026, 9:00 AM - 12:00 PM **\$150**

Plants offer a beautiful variety of earth tones when turned into dye and applied to fibers. Spend the day in the industrial kitchen at Pro Chemical and Dye in Fall River to create color and pattern on silk and wool scarves using seasonal and natural plants – just in time for early spring. Students will use marigold and chestnuts collected from Suzi's yard and neighborhood, brazilwood collected from a violin maker and organic logwood as our beginning color palate. Using the traditional Japanese Shibori techniques itajime, arashi, kumo and ne-maki, we will spend the day making and learning!

## SATURDAY
